

My Responsibilities at PNC

My name is Tiv and I'm a student at WEP B Generation 2024 at PNC School. Nowadays I have three daily responsibilities. First, I'm a student who attends classes and studies with the teachers. Additionally, I engage in self-learning for 2 to 4 hours per day after leaving school. Second, I take on the responsibility of being a cleaner at school. As per the school rules, students are required to clean the school once a week and I participate in this cleaning activity. Third, I'm a researcher and sharer with my friends. During my free time, I conduct research related to my major, such as exploring new programming languages that I will study in the next term or for the term that I'm studying every day like PHP, CSS, JavaScript, MySQL, and more programming languages. I share my findings with my group study. It's great that I'm actively engaged in various aspects of my academic life.
