Introducing Myself

Hello! I would like to introduce myself to you. My name is Tiv Nguot. I was born in Ratanakiri province, a beautiful place in northeastern Cambodia. I have three siblings have an older brother, me and a younger sister. We are a happy and loving family. My native language is Kreung and Khmer, but I also study English. Nowadays I'm a sophomore studying IT at Passerelles Numériques Cambodia and my favorite subjects are English, HTML, and programming languages because I think they are useful and interesting. I want to learn English well because it is an important language that we can use to communicate with people from different countries and cultures. My goal for the future is to become a developer because I like to create things with technology. I think I have a talent for being quiet and focused. I enjoy listening to music doing exercise and learning English or code from videos in TikTok at home in my free time. I also like to get up early at 5:30 am every day, because it makes me feel energetic and productive. That's all!
